“90.3 FM KBXO  
Coachella/Palm  
Springs, CA

ERP = 340 watts  
horizontal and verti-  
cal

Our chief engineer  
Barry O'Connor is  
very happy with the  
performance of this antenna.

PSI is a very good company to work with. Doug Ross  
is very helpful when you need extra help. I have  
called him at his home on weekends when we were on  
a install job. We got the problem handled and the in-  
stall was a success.

Thank You.”

Rick Norwood, Director of Engineering  
Oasis Radio Network
